Your Virtual Academy

Centralising Information

The centralised portal has made communicating the latest information easier than ever, by providing a central communications platform that is able to be tailored to how your organisation is structured, to what target information is needed for different people in different departments, to resources regarding new changes such as Microsoft 365 training and products relating to user viewing content.

Community and Collaboration

Ever had pressing questions about a specific Microsoft 365 product you really needed to ask but nobody can answer it immediately in your company?

With the Virtual Academy, your question will be guaranteed to be answered. Being able to post a question to the community will allow anybody to answer it at anytime and anywhere or even collaborating and interacting with peers to get those pressing question answered.

Self-Paced Learning

Centralising Information

Learning anything new can be daunting from someone explaining things to quickly, to not understanding the new concepts of Microsoft 365 products. Virtual Academy can solve these common problems by providing all the material you need to get up-to-speed in one place, with information relating to how Microsoft 365 products are used in your role effectively and how it can change the way the user works, which can all be read at your own time and pleasure at anywhere; at any time.

Personalisation

Virtual Academy is personalised to your learning experience, providing training specifics to your role as well as new features and services that can help you with your role.
